Meet the Founders

Meet Stanley and Ashley, the visionary husband-and-wife team behind eConnect Cards App. Based in Cypress, Texas (Metro Houston), they bring a wealth of experience from the IT industry, specializing in end-user computing, process improvement, business analysis, IT audit, and project management. Their careers span prestigious companies such as Infosys Technologies, Ernst & Young, JP Morgan Chase, and Academy Sports + Outdoors IT.

Driven by their passion for technology and innovation, they founded SAAIG Technologies LLC, a software development company that gave rise to eConnect Cards—a cutting-edge digital business card solution designed for seamless networking.

Stanley holds a Bachelor's degree in Engineering from the University of Washington, Seattle, and an MBA from Keller Graduate School of Management, DeVry University.

Ashley earned her Bachelor's degree in Information Systems from Louisiana State University (LSU), and an MBA from Southern University (SU), both of Baton Rouge.

Beyond their professional pursuits, Stanley and Ashley are devoted parents to their son, Stanley Jr. They share a love for travel and are passionate supporters of his competitive soccer journey.
